Stay in Thailand February - March 2017

Daily we follow up the students who have scholarship from Belgisaan in the schools of the province Udon Thani.

We decided to continue to support Songwan (who will study in secondary 4 next May) and his younger brother Parnthongtar (who will start secondary 2 next May) from who the father passed away last year (they lost their mother already). Soon they will move to family in the province of Loei. We promised to the father to take care of the 2 boys after his death. They are Belgisaan very grateful.

Soon they will move to family in the province of Loei. We promised to the father to take care of the 2 boys after his death. They are Belgisaan very grateful.

We visited Jiraporn Boontea, a student of secondary 5, in her school at Kon Kaen. The school direction was very pleased with our visit. She is a very good student and is happy in her school and in her host family, which is family of our Thai team member Jirawan.

We distributed clothes tot he poor people of Bannarong.

The students of primary 6 of the municipallity school Slijpertje of Middelkerke (Slijpe) collected money for the scholarship of Naharutai from the school of Nongkhuakhu. They collected more money as planned so that we could shop for her basical needs. She was very happy.

We visit also daily the people in the poor area for help and support them.

We met Naraporn. She came from a very poor family. A few years ago, she get scholarship from Belgisaan and could continue to study. These days she has a well-paid job in Bangkok. We were happy to meet each other again. She is very grateful to us. (picture on the left).

We visited again Niyom, the man of Bannarong who has leprosy, and we continue to take care of him. He is very grateful for what we do for him. (picture on the right)
